SCN 4005

MICR and OCR code line reader

Front and Rear image capture

Removable collecting bin for processed documents

SCN 4005 is a peripheral for banking and financial documents treatment, integrating inside a MICR and OCR code line reader, and a front and rear scanner for images capture. Thanks to the transport speed and the small space occupied, it is ideal for front office use.

SCN 4005 reader scanner could be easily interfaced to the greater part of application programs using MICR and OCR automatic code line readers.
